Re: European Union REACH Directive (1907/2006) Substances of Very High Concern (SVHC) Annex XIV and Restricted Substance List Annex XVII, and all Engineered Seals & Components products.

Dear Sir or Madam:
Thank you for your inquiry regarding the European Union (EU) Directive covering the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH) Candidate List of SVHC Annex XIV and XVII materials and their use in Engineered Seals & Components' (ESC's) Products.

Based on the information provided to ESC by its raw material suppliers and our formulation reviews, we confirm that all ESC products do not intentionally contain REACH SVHC Candidate substances at or above the applicable threshold (0.1%) as updated by the European Chemical Agency (ECHA) (4, February 2026). Please note that we do not test for these materials. There are currently 253 entries on the candidate list of SVHC substances. They can be located at http://echa.europa.eu/candidate-list-table

In addition, ESC products do not intentionally contain REACH Annex XVII Restricted substances at or above the applicable threshold (0.1%) as updated by the European Chemical Agency (ECHA) (10, December 2025). Please note that we do not test for these materials. There are currently 78 entries on the restricted substance list. They can be located at https://www.echa.europa.eu/substances-restricted-under-reach

The information submitted is valid as of the date of this letter for products manufactured in North America. ESC makes no representations or warranties as to the accuracy of the information contained or referenced herein as of any other date. If you have any questions concerning this matter or if we can be of further assistance, please do not hesitate to contact us.

Sincerely,

Bryan Lair

Re: EPA TSCA (Toxic Substances Control Act) Section 6 (h) and all Engineered Seals & Components products.

Dear Sir or Madam:
Thank you for your inquiry regarding the EPA prohibiting the following chemicals from being used in Engineered Seals & Components' (ESC's) Products.

- Phenol, isopropylated phosphate (PIP 3:1)
- Decabromodiphenylether (DecaBDE)
- 2,4,6-Tris(tert-butyl)phenol (2,4,6-TTBP)
- Hexachlorobutadiene (HCBD)
- Pentachlorothiophenol (PCTP)
- Restricted PFAS chemicals.

Based on the information provided to ESC by its raw material suppliers and our formulation reviews, we confirm that all ESC products do not intentionally contain substances prohibited by the Toxic Substances Control Act Section 6 (h). Please note that we do not test for these materials.

The information submitted is valid as of the date of this letter for products manufactured in North America. ESC makes no representations or warranties as to the accuracy of the information contained or referenced herein as of any other date. If you have any questions concerning this matter or if we can be of further assistance, please do not hesitate to contact us.

Sincerely,

Bryan Lair

Re: PFAS Identification

Dear Sir or Madam:
Per- and polyfluoroalkyl substances (PFAS), sometimes called "forever chemicals," is a group of thousands of substances widely used in many industries. Due to growing awareness of health and environmental concerns, PFAS are facing increasing scrutiny worldwide. In-force and proposed measures set restrictions or requirements on PFAS use in some jurisdictions, and due diligence may be necessary to meet legal obligations, ESG commitments, and/or business requirements.

Based on the information provided to ESC by its raw material suppliers and our formulation reviews, we confirm that all ESC products, with the following exceptions, do not intentionally contain PFAS substances.

The following products DO intentionally contain PFAS substances in the form of PTFE
-All ECT series Capped-T seals.
-All Wear Rings with a PA940-15 material callout.

The information submitted is valid as of the date of this letter for products manufactured in North America. ESC makes no representations or warranties as to the accuracy of the information contained or referenced herein as of any other date. If you have any questions concerning this matter or if we can be of further assistance, please do not hesitate to contact us.

Sincerely,

Bryan Lair

Re: Statement regarding RoHS 3, or Directive 2015/863, compliance and non-use

Dear Sir or Madam:
Thank you for your inquiry regarding the European Union (EU) Restriction of Hazardous Substances (RoHS) Directive 2015/863, known as RoHS 3.

Based on the information provided to ESC by its raw material suppliers and our formulation reviews, we confirm that all ESC products do not intentionally contain RoHS 3 candidate substances at or above the applicable threshold. Please note that we do not test for these materials. The current Candidate list of RoHS substances can be located at
https://ec.europa.eu/environment/topics/waste-and-recycling/rohs-directive_en

The information submitted is valid as of the date of this letter for products manufactured in North America. ESC makes no representations or warranties as to the accuracy of the information contained or referenced herein as of any other date. If you have any questions concerning this matter or if we can be of further assistance, please do not hesitate to contact us.

Re: Statement regarding CMRT 6.5 - Conflict Minerals [EU Regulation 2017/821] [Dodd-Frank Wall Street Reform and Consumer Act §1502]

Dear Sir or Madam:
Thank you for your inquiry regarding Conflict Minerals [EU Regulation 2017/821] [Dodd-Frank Wall Street Reform and Consumer Act §1502]

Based on the information provided to ESC by its raw material suppliers and our formulation reviews, this product does not contain any of the conflict minerals/ores, metals, or derivatives originating from the African Great Lakes Region, the Democratic Republic of Congo, or an adjoining country.

The ingredient information is based on our vendor's disclosure information and may not include all proprietary, trade secret or contamination information that has not been provided to ESC by our vendors. Please note that we do not test for these materials.

The information submitted is valid as of the date of this letter for products manufactured in North America. ESC makes no representations or warranties as to the accuracy of the information contained or referenced herein as of any other date. If you have any questions concerning this matter or if we can be of further assistance, please do not hesitate to contact us.

Sincerely,

Bryan Lair

Re: California Proposition 65 (effective Dec 8, 2025)

Dear Sir or Madam:

This letter is to inform our customers that none of our products contain chemicals listed on California's Safe Drinking Water and Toxic Enforcement Act of This Act, commonly known as Proposition 65 (Prop.65), establishes a list of chemicals, which the state of California's risk assessment process has determined to present a risk of cancer, birth defects or other reproductive harm. The Prop. 65 list can be found at:

http://oehha.ca.gov/prop65/prop65_list/Newlist.html

The ingredient information is based on our vendor's disclosure information and may not include all proprietary, trade secret or contamination information that has not been provided to ESC by our vendors. Please note that we do not test for these materials.

The information submitted is valid as of the date of this letter for products manufactured in North America. ESC makes no representations or warranties as to the accuracy of the information contained or referenced herein as of any other date. If you have any questions concerning this matter or if we can be of further assistance, please do not hesitate to contact us.
